3.	Comment. Between 7 and 10 October, units of the 18th Mecz Div which had not participated in the exercises of the Third Shock Army probably transferred to their winter quarters. The present information indicates that the Wittstock training grounds had been vacated prior to 10 October.		25X′
4.	Comment. The information on the occupation of the installation contradicts observations by the same source of early October and railroad records according to which the units of the 94th Gds Mtz Rifle Div stationed in Wismar did not participate in the exercises of the Third Shock Army from late September to early October. According to the present report the units concerned did participate since the date of the return checks with information on the retransfer of other participating units.
